

# Medicines for Children

Practical and reliable information  
for parents and carers about  
giving medicines to their child

Information leaflets and videos available online  
- developed by paediatricians and pharmacists  
with consultation from parents, carers and children

[www.medicinesforchildren.org.uk](http://www.medicinesforchildren.org.uk)

**When and how do I give my child their medicine?**

**What if I forget to give the medicine or give too much?**

**Could there be any side-effects?**

Medicines for Children hosts over 200 patient information leaflets and films specifically developed for parents and carers covering medicines commonly prescribed to children.

Since 2011, Medicines for Children has been certified by NHS England's Information Standard as a producer of accurate health information.

**"The leaflets help me to support families to make informed choices about medicines"**

**"The leaflets are simple and informative. Thank you for putting them together for us medics and parents"**

**"A game changer in keeping children safe"**

Feedback from RCPCH clinicians, 2016
